- Epidemiology, clinical presentation and complications of atopic dermatitis and food allergy
- Feline allergic dermatitis - cats are not small dogs!
- Diagnosis of food allergy
- Therapy of atopic dermatitis part 1 - Systemic
- Therapy of atopic dermatitis part 2 - Topic
- Therapy of feline head and neck pruritus
- Flea bite allergy and update on flea control
- Otitis part 1
- Otitis part 2
- Interactive case presentations

2018 Annual Meeting of the Argentinian Veterinary Dermatology Society, Mendoza, Argentina (16.11.18)

- Approach to erosive-ulcerative dermatitis
- Lupus and pemphigus
- Other Vesiculobullous diseases
- Therapy of autoimmune diseases
- Drug reactions
- Paraneoplastic syndromes

2018 GVDEG Education Programme Tirana, Albania, 15-16.12.18

- Cushings disease
- Hypothyroidism
- Other endocrine diseases (testicular tumour, dwarfism)
- Non endocrine alopecia
- Pemphigus and lupus complex
- Miscellaneous immune mediated diseases
- Therapy of autoimmunediseases
- Deep mycoses
- Viral diseases
- Parasitic diseases
- Practicals parasites
- Otitis

2019 Improve Dermatology Course Lisboa Portugal (12-13.1.19)

- Approach to erosive and ulcerative diseases in dogs and cats
- Vesiculobullous immune-mediated diseases, including vasculitis and dermatomyositis
- Erosive-ulcerative drug reactions and metabolic epidermal necrosis
- The lupus complex
- Therapy of autoimmune diseases
- Approach to symmetrical alopecia
- Cushing's including therapy
- Hypothyroidism including therapy
- Other non inflammatory symmetrical alopecias
- Approach to keratoseborrhic disorders
- Treatment of keratoseborrhic disorders
- Case presentations

2019 Zoetis Veterinary Dermatology Course Canton, China (22-24.1.19)

- Introduction to the dermatological consultation: history taking and clinical examination
- Primary and secondary skin lesions
- Ancillary tests in dermatology: materials and methods of skin scrapings, scotch test, Wood's lamp examination, bacterial and fungal culture
- Skin biopsy: indications and guidance for a good sampling procedure
- Practical on cadavers and microscopes
- Cytology: materials and methods and normal findings
- Inflammatory findings in cutaneous cytology
- Neoplastic findings in skin cytology
- Practicals with microscopes – cytology
- Structure and function of the skin and adnexa
- Trichoscopy materials, methods and normal findings
- Trichoscopy pathological findings
- Practicals with microscopes - trichoscopy

2019 Improve Dermatology Course, Frankfurt germany (23-24.2.19)

- Approach to erosive and ulcerative diseases in dogs and cats
- Vesiculobullous immune-mediated diseases, including vasculitis and dermatomyositis

- Erosive-ulcerative drug reactions and metabolic epidermal necrosis
- The lupus complex
- Therapy of autoimmune diseases
- Basics of endocrine physiology
- Testicular tumours and pituitary dwarfism
- Cushing's including therapy
- Hypothyroidism including therapy
- Nutritional dermatoses
- Nutritional therapy

2019 Unisvet Seminar on Atopic dermatitis, Milan, Italy (23.3.19)

- The role of PEA in allergic dermatitis of cats and dogs

2019 Austrian Veterinary dermatology Group meeting, Vienna (27.3.19)

- overview on pathogenesis of atopic dermatitis
- microbioma
- diagnosis and therapy of food allergy: in vitro tests, diets, slit
- lokivetmab
- what's new in treating feline pruritus, including PEA and oclacitinib

2019 Improve Dermatology Course frankfurt, Germany (11-12.5.19)

- etiopathogenesis of canine atopic dermatitis
- Clinical presentations AD, FH, FAD and secondary infections
- diagnosing canine allergy (including discussion on allergy testing)
- therapeutical strategies (including ASIT, SLIT etc)
- Approach to skin nodules
- epitheliotropic lymphoma
- Histiocytosis
- Case presentations

2019 Nordic Veterinary Dermatology Board meeting, Stockholm, Sweden (25.05.19)

- New approach for the treatment of atopic dog

2019 ESAVS Dermatology Course II, Vienna, Austria (4-5.7.19)

- Deep mycoses
- Leishmaniasis
- Pigmentary diseases

2019 CEVA Pre-Congress Day, Liverpool, UK (24.9.19)

- In field trials results with Douxo S3

2019 Improve Dermatology Course Duesseldorf (12-13.10.19)

- introduction to the dermatological consultation: history taking and clinical examination
- primary and secondary skin lesions
- ancillary tests in dermatology: materials and methods of skin scrapings, scotch test, Wood's lamp examination, bacterial and fungal culture
- skin biopsy: indications and guidance for a good sampling procedure
- trichoscopy normal and pathological findings

- practicals of trichoscopy (with microscopes)
- Cytology: materials and methods and normal findings
- Inflammatory findings in cutaneous cytology
- practicals with microscopes – slides on inflammatory findings
- Neoplastic skin cytology
- practicals with microscopes – slides on neoplastic cytology

2019 SCIVAC Congress on Dermatology Arezzo, Italy (25-26.10.19)

- How to confirm the diagnosis of canine atopic dermatitis
- Update on therapy of canine atopic dermatitis
- Feline allergy. An overview
- Canine autoimmune diseases
